Alejandro Espino Pérez

Full-Stack Developer | Laravel · React · Next.js · TypeScript

espinoperezalejandro50@gmail.com · Havana, Cuba · US Eastern Time · Remote
github.com/AlejandroEspinoPerez

SUMMARY

Full-Stack Developer with 3.5+ years of experience, building **production SaaS for US and Spanish companies** since late 2024. Core stack: **Laravel + React/Next.js with TypeScript**; also Angular, NestJS and React Native/Expo. Full-time primary frontend developer on **Falcon Dispute** (Dumbo Credit), with a focus on payments.

SKILLS

Frontend:	React, Next.js (App Router, SSR), TypeScript, Inertia.js, Angular, Tailwind CSS, TanStack Query, Zustand
Backend:	PHP 8, Laravel 9–13, Filament, Livewire, NestJS, Node.js, REST APIs, Sanctum/JWT, queues, webhooks
Mobile & data:	React Native, Expo (Router, EAS) · MySQL/MariaDB, PostgreSQL, SQLite, Eloquent, TypeORM
Integrations:	Stripe, Revolut Business, NMI, PostGrid, Twilio, Telegram Bot API, Firebase (FCM), OneSignal
Tooling:	Git (GitHub/GitLab), pull requests, GitHub Actions, PHPUnit, Jest, i18n, technical SEO, RBAC (Spatie)

EXPERIENCE

Full-Stack Developer · Independent Contractor (B2B)
11/2024 – Present

Remote · Full-time on Falcon Dispute (Dumbo Credit, US) since 09/2025, plus projects for clients in Spain.

Falcon Dispute — Dumbo Credit · credit-repair SaaS · falcondispute.com — 09/2025 – Present

- Primary frontend developer (**~75% of frontend commits; 1,500+ commits overall**) on a multi-tenant CRM built with Laravel 10, Inertia.js, React and TypeScript.
- Built the full UI of the core dispute workflow (credit-report review, round-based letter builder, PostGrid mail-out, results) and the billing experience on **Stripe and MagicPay**.
- Created the white-label **client portal** from scratch (Next.js 16, React 19, TanStack Query): per-domain branding, ~30 feature flags, e-signatures and tokenized NMI payments.
- Hardened RBAC (Spatie permissions, role guards), removed PII from API payloads and localized the app (EN/ES).

Clients in Spain · via Innet and a remote dev team — 06/2025 – Present

- **Kruceros** (cruise-booking CRM/ERP): main developer since June 2026 on Laravel 10 + Filament 3; automated payment collection via **Revolut Business webhooks** (HMAC, OAuth/JWT, hourly reconciliation).
- **Tourney Padel** (06/2025 – 09/2025): main full-stack developer (350 of 535 commits) of a Laravel 12 API and an **Expo/React Native** app localized into 8 languages, with a tournament engine and Stripe subscriptions.
- Built **VECTRA ALL FINANCE**, a real-estate and mortgage CRM, almost single-handedly (Laravel 13 + Filament 5), plus most of the CMS and the technical SEO for **Grupo Estucalia**'s trilingual website.

Dumbo Credit & TaxFinder · via Capo Digital — 11/2024 – 05/2025

- Built **Dumbo Credit**'s 3-bureau credit report, admin dashboard and affiliate portal (Next.js 14, TypeScript); shipped **TaxFinder**'s admin dashboard, in-chat payments and Firebase push notifications.

Frontend / Full-Stack Developer (part-time) · Centro FORTES — UCI
2023 – Present

- Built the responsive base layout and 24 master-data CRUD screens for **SIGIES**, Cuba's national university admissions system (Angular, NG-ZORRO), and in 2026 an end-to-end NestJS + TypeORM module with 19 Jest tests.

Frontend Developer · Havana Technology Park
01/2023 – 09/2023

React frontend for the Fyself platform

SELECTED PROJECTS (AI-ASSISTED)

- **Battle Infinity** — 3D mobile auto-battler (Expo, three.js): LAN multiplayer with deterministic lockstep and replays.
- **Reino del Alba** — browser tower-defense game: LRU sprite cache, 78 automated smoke tests (live demo).

EDUCATION
